

**VILLAGE OF FOREMOST  
PUBLIC NOTICE  
SEPTEMBER, 2020**

**MULCHING AND COMPOSTING AS AN ALTERNATIVE**

**MULCHING:**

Mulching is becoming increasingly popular, due to its convenience and the health benefits it provides to the lawn. A mulch blade or lawnmower chops the clippings down to a fine mulch which is then returned to the lawn. As the tiny grass clippings decompose rapidly, the lawn has a cleaner appearance. Nitrogen and other essential nutrients are fed back into the grass roots, resulting in a thicker and greener lawn without fertilizing or feeding.

For best results when mulching, the rule of thumb is not to cut off more than one-third of the grass length. For optimum results, do not cut below 30-40 mm and cutting frequently is recommended. Mulching is also beneficial to help maintain soil balance and moisture, thus less water is required for healthy grass. This also saves on volumes in land fills and promotes a healthy and happy yard.

**COMPOSTING:**

The Village of Foremost has set aside an area for the composting of leaves and grass. It is located in the Industrial Park, north of the new County Shop, adjacent to the large dirt piles, use access road at east end.

Please follow the following system when utilizing the composting area:

- Only leaves and grass clippings
- Plastic Bags are to be dumped and if discarded, put into barrel next to composting area
- No garbage, household or otherwise
- No shrub or tree trimmings or branches
- No metal
- Biodegradable bags are permissible

Your cooperation in maintaining this composting site is appreciated.

**However, we still continue to receive complaints regarding dogs that are running loose with the Village or causing a disturbance by excessive barking.**

**Dogs running at large are a nuisance to other residents. They tear up garbage, damage and destroy property, and at times frighten children and adults.**

**Please continue to keep our Village a clean and pleasant place to live by making sure your dog is kept within the confines of your yard, unless it is otherwise restrained by a permitted leash held by a person and that lease is attached to a choke chain, collar or harness securely holding the dog.**
